

Workforce Communications Managerclosing the communication gap!

The Buzz about Wavelength

"Accountability has improved. You cannot account for paper trails but people are now more accountable with the electronic format - the paper trail is related to each user."

Administrator

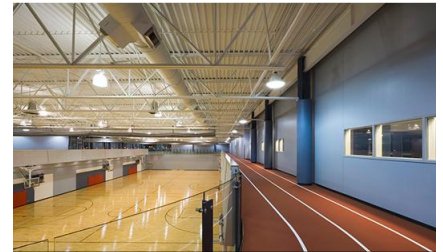

"My favourite part of Wavelength is that I am always in the loop; I feel more a part of everything that is going on in the office. Plus I get to stay organized with schedules, calendars and task tracking."

William,
HR Associate

Wavelength is a comprehensive and cost effective solution for managing your University service workforce. It extends beyond traditional Scheduling, Time and Attendance systems by engaging your workforce through a work flow centric approach. **Wavelength's** self-service environment empowers employees to manage their work and information.

Wavelength standardizes work flow and communications to enhance collaboration between your Employees, Supervisors and Administrators. **This supports improving the student experience.**

- ✓ Improved Quality of Work Life

Workforce Communications Managerclosing the communication gap!

The Buzz about Wavelength

“Wavelength is so easy to use, and it keeps me organized and better prepared for my shifts!”

Jane,
Student Employee

“Better communication is huge... Vital information, [like] changes to our operations for example, isn't missed because it is always updated and everyone has access to it, and knows where to find it.”

HR Manager

“I love Wavelength! Everyone is so organized, and things seem to just flow better!”

Leslie,
Market Research Analyst
